

ONE

Touch | Keypad Pure-Coffee

Coffee, Hot Water and C-Lever Steam
Touch Screen or Keypad user interface

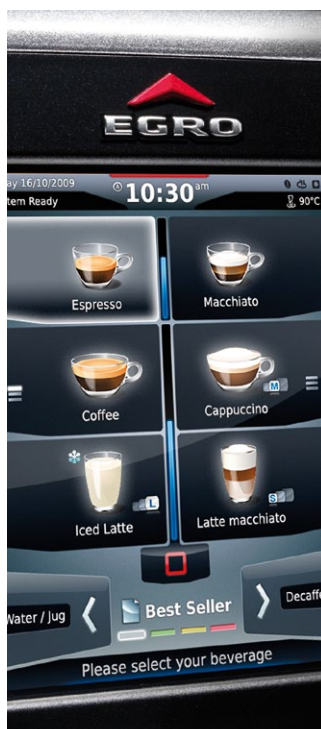

Simplified Elegance

The Egro ONE Pure-Coffee combines style with high quality functionality. The floating design of the strong front panel highlights the brilliant touchscreen interface and provides an ergonomic design element.

up to
250
espressos / hour

up to
180
coffees / hour

Two main versions:

ONE Touch

with a large 5.7" touch display

ONE Keypad

with a traditional keypad.

The ONE Touch has an advanced user interface with a 5.7" touchscreen graphic display in full colour.

The easy-to use user interface guides the barista through the choice of products. The multi-colored page system enables the barista to choose from 48 products, each one with its own attractive user-friendly icon. Restricted access technical menus offer the machine administrator a wide range of additional functions, such as precisely defining the ingredients of each individual drink, creating new drinks, checking machine consumption, running diagnostic checks and regularly cleaning the machine with step-by-step procedures shown on the display.

Dura-Brew. The ONE features the most durable brewing technology available in this class of equipment. The patented stainless steel brewing group features advanced sealing technology which requires less maintenance visits and reduces the cost of ownership.

iSteam. The completely automatic intelligent patented iSteam wand froths milk to the perfect texture and temperature. The comprehensive software offers a full range of frothing levels ensuring that your unique taste profile is achieved.
